February 19 - Winter Birds at Camp Y-Koda

Come explore Wisconsin winter birds. We'll study which birds fly south for the winter and which ones stick around, how they survive the cold, and how you can bring them to your backyard.

March 26 - Sugar Bush Tour at Maywood

Students will be introduced to Wisconsin's annual spring tradition of "sugaring." We'll learn the science behind the sap, see how the sugaring operation has changed throughout history, learn how to tap a tree and taste real maple syrup on pancakes!

May 21 - Outdoor Skills Day at Camp Y-Koda

Students will get the chance to try some outdoor and wilderness skills. We will go through survival skills including fire starting and shelter building. They will also get to take aim with target sports like archery and slingshots.

June 18 - Honey Bees at Maywood

Join us as we learn about the importance of pollinators especially Wisconsin's state insect, the honey bee. We'll discover what life is like inside the hive and how you can help create a honey bee habitat.
