February 18 • Ages 5 – 10

Winter Wildlife Tracking at Camp Y-Koda

Students will learn to identify animal tracks and signs that tell stories of winter wildlife. Through observational skills we'll read the landscape to interpret the animal's winter behavior.

February 25 • Ages 10 – 14

Marsh Winter Ecology at Sheboygan Marsh

Students will explore the frozen landscape of the marsh to learn how different plants and animals adapt to cold winter conditions. We will study some winter wetland species, search for clues left by wildlife, and examine their winter survival strategies.

March 25 • Ages 5 – 10

Sugar Bush Tour at Maywood

Students will be introduced to Wisconsin's annual spring tradition of "sugaring." We'll learn the science behind the sap, see how the sugaring operation has changed throughout history, learn how to tap a tree and taste real maple syrup on pancakes!
